Wine Analysis	ALC 12.0% pH 2.95 TA 8.50
----------------------	---------------------------

Dosage	2.5g/L
---------------	--------

Certification	In conversion to certified organic
----------------------	------------------------------------

Winemaking

Our first release of Small Wonder Blanc de Noirs, the 2021 vintage was produced entirely from a single block of Pinot Noir deemed worthy of a standalone bottling. The fruit was harvested by hand and gently whole-bunch-pressed to tank. The free run portion was clarified and racked to stainless steel, then inoculated with a neutral yeast for fermentation. Once dry, the wine underwent full malolactic fermentation. The wine was tiraged in November 2021, and matured for a further 24 months on lees prior to disgorging.
